It could be three times that much. After several months I had blood work, my LDH still higher than doctor wanted, so he prescribed Lipitor. But she's matter of fact about what motivates her. Letter to the Editor: The commonly prescribed cholesterol lowering medication had a different cash price at each of the seven drug stores we called. And sometimes, a drug is cheaper by not going through your insurance. Prices are for brand-name drugs. Drugstores often won't quote you an insurance price unless they have your prescription in hand, so shopping for the best price with insurance may mean going into the store. Felix says having a relationship with your pharmacist and physician can help. Prices for brand-name drugs are typically higher in the U. I shop around, I use coupons, I talk to my pharmacist," says Felix. Seven of eight top-selling drugs examined still cost more in the U. In other nations, the drug's price drops even lower. Best, worst states for women. America's top 10 best-selling cereals. Manufacturer local currency prices from IHS Inc. Currency conversions represent October rates. Nov 29, - While generic drugs usually cost less than brand-name versions, Lipitor is an exception to the rule for the next six months or so, for two reasons. First, only one or two drug makers will produce the generic form of the drug, atorvastatin, between now and May, essentially cornering the market and. Apr 3, - Shoppers found they could be paying as much as \$, or %, more for a generic prescription drug in one year at the highest-priced pharmacy, compared with the lowest. The priciest "Costco and Sam's Club are using the low drug prices to pull people in stores who will spend money on other things.". Nov 17, - Consider atorvastatin (Lipitor), a leading cholesterol-lowering statin, whose initial cost of more than \$5 a tablet fell by 95% to 31 cents a tablet when the Improving patients' adherence to their medication regimens does increase spending on drugs, but the long-term savings can be so compelling that. Apr 23, - You might be interested to know that Costco has a well-publicized pricing strategy of charging the wholesale price plus a standardized 14% mark-up on everything it sells, including prescriptions. So how much was Costco charging at the time for this life-saving cancer drug? \$27 per month. So we can. Nov 17, - What's more, there are generic versions of these drugs that cost much less, and yet you won't see them in commercials. For many years, there has been general agreement in the medical community that statins (also called HMG-CoA reductase inhibitors) can decrease the incidence of heart attacks and.
