In case of overdose, get medical help or contact a Poison Control Center right away. Do you need a decongestant? With or without a decongestant, Allegra, Claritin, and Zyrtec are all antihistamines, meaning they calm down your body's immune reaction to allergens like pollen or animal dander. Zyrtec acts the fastest usually within one hour but is also the most likely to make you drowsy, so avoid driving, alcohol, and sedatives as you figure out how you react. Their "best buy" recommendations were for the 10mg tablets of cetirizine, loratadin also available in dissolving and liquid forms, and Alavert a "branded generic" of loratadin. But if you can still breathe through your nose, proceed to Step 2. If you're shopping for allergy medication, we'll assume your eyes are itchy, your nose is running, and you can't stop sneezing. This information has been compiled for use by healthcare practitioners and consumers in the United States. The savings from four Kirkland-brand canisters, which provide about one month of formula for a six-month-old, pay for the cost of membership. Go to mobile site. Dried fruit Whether you sprinkle them on yogurt or eat them by the calorie-dense handful, dried fruits like cranberries, apricots, and blueberries are tasty ways to pack in antioxidants and vitamin C. This may sound obvious, but the key thing to pay attention to is not what's written on a box, but what actually works for you. Osmolex ER Osmolex ER amantadine hydrochloride is a proprietary formulation of immediate release and This material is provided for educational purposes only and is not intended for medical advice, diagnosis or treatment. Seek medical help right away. Just pay attention to labels so you know which active ingredient you're getting. Your mileage may vary, literally. Zyrtec-D 12 Hour, 24 Tablets Cetirizine HCl 5 mg.
