They also had fewer heart attacks, strokes and angioplasty procedures than would typically be seen in patients on less aggressive statin regimens. Patients taking Crestor also had higher levels of good HDL. Kesselheim was not involved in the current study. On some measures, patients taking Crestor did better than those on Lipitor: By the end of the study, both groups had significant reductions in the fatty plaque lining their arteries, with few serious side effects. Stephen Nicholls, clinical director of the Cleveland Clinic Center for Cardiovascular Diagnostics and Prevention, included more than 1, patients, average age 57, with coronary artery disease. Participants were randomly assigned to take high doses of either Lipitor 80 mg or Crestor 40 mg daily for two years. For many patients, it will likely come down to money: Still, experts said the differences may not persuade many patients to switch to or stay on Crestor, known as the most potent of statins, given that Lipitor the best-selling drug ever will soon cost a lot less. But after the patent on Lipitor expires on Nov. In a head-to-head test of two popular cholesterol-lowering statin drugs Lipitor and Crestor both medications worked equally well.
