Lot numbers of the affected drugs are: ET or Friday, 9 a. Patients with questions regarding this recall can contact Pfizer Medical Information at Monday to Thursday 9 a. Both affected formulations are milligram extended release capsules. Tikosyn, which is used to treat highly symptomatic atrial fibrillation a common type of heart arrhythmia , can cause serious side effects, including an abnormal heartbeat that can be fatal. Signs of an abnormal heartbeat include dizziness, fainting and a racing heart rate. Combining the two medications without a doctor's knowledge could be fatal. A pharmacist reported that one bottle of Effexor XR, an extended release version of the drug, which is FDA approved to treat patients with depression and certain types of anxiety, contained one capsule of Tikosyn , a heart drug that was packaged on the same line. Patients with questions regarding the return of product should contact Stericycle at Monday to Friday 8 a. Photos of the two drugs side by side for comparison are available here.
