If we can no longer use medications that work best, we may revert to second-rate status medically and only marginally improve the lives of the people we treat. In July, a special committee of the board rejected a buyout bid by Sun, describing the offer as inadequate. Individuals with far more knowledge than me have given several explanations including high costs of developing new drugs, problems with manufacturing and the lack of profit in producing generic drugs as reasons for cost inflation. The phenomenon offers a window into the murky and often illogical world of drug pricing, where prices are not always driven by the usual rules of supply and demand. This new economic reality strikes at the heart of the service we dermatologists provide for our patients. Maybe you should have a talk with Dr. Brought to you by: In this particular instance, I reluctantly substituted fluocinonide cream for the clobetasol, knowing that it was unlikely that he would re-pigment while on this therapy. Due to inactivity, you'll need to go back and start the process from the beginning. Step therapy stalls appropriate patient treatment This new economic reality strikes at the heart of the service we dermatologists provide for our patients. Mid-Level Providers in Practice As the demand for dermatologic services continues to grow, so does the use of non-physician clinicians in dermatology. Perrigo and Sandoz declined to comment on pricing strategies. Are you currently employing mid-level providers, or do you have plans to? If dermatologists decide against treating skin conditions with effective prescription medications, who will be capable of treating complicated conditions? You are already subscribed to this email. Tell us what you think. The hefty price increases have stumped doctors and their patients. Kedrowski said that in some cases prices were starting to drop again as competitors who had stopped making certain drugs saw opportunity and returned to the market. But increasingly, some dermatologists say, patients are complaining about a recent, mysterious and rapid rise in price. Her recent article "Rx insurance woes" suggests we should be able to prescribe any medication whenever we want, no matter how much it costs.
