I do the skin picking, and the nail biting, picking, cutting. They have been discovered only "coincidentally during routine side-effect queries," according to one group of researchers, who suspected that patients may be "unwilling to reveal the experience. I wish everyone could use it. Some users with SSRI-related sexual dysfunction have taken "drug holidays," leaving their medication in the medicine cabinet for a few days to let their libidos rejuvenate. Not sure if this is a side effect or something more psychosomatic. As many as 70 percent of users on selective serotonin re-uptake inhibitors like Prozac, Paxil and Zoloft experience sexual dysfunction, and other classes of drugs can also pose similar problems. Your post gave me shivers, I used to take Sertraline mg daily and I used to shoplift and thoroughly enjoy it I may add. It would be a perfect world if we were all able to use things like this and then never be depressed again, but life isn't like that. Depression is "being stuck", and in many cases, "staying stuck". Sooner or later in the discussion, there will be something that you know about, and at times its good to be able to join in, add your opinions. Wondering if I should just come off the meds - being depressing was less destructive than what I'm doing now! I understand that CBT is not for everyone, although i wish it was. No registered users and 4 guests. Even if they're not giving you spontaneous orgasms don't get your hopes up , they alleviate depression, which is quite a libido-killer on its own. I think we all "wallow" a little, some more than others, and my CBT has helped me with that. And it's key that patients find the right combination of drugs in order to minimize sexual side effects that may occur. Register Search Search Search. It gives you a certain way of learning to recognise your thoughts, and then later, to challenge them; it helps to bring them back to reality, dragging me with it. I was on 50mcg at the beginning, but it was increased about three years ago to ; and two years ago it was upped to mcg from mcg a day. I learned to recognise my thoughts, firstly to let the thoughts in, acknowledge them and let then drift back out having done nothing about them. As many as 5 percent of patients experience the side effect, experts say, though the orgasms may be widely underreported:Dec 4, - The number of antidepressant drugs on the market today is vast, from selective serotonin re-uptake inhibitors (SSRIs) with such trade names as Lexapro, Prozac, Paxil, and Zoloft, to serotonin-norepinephrine reuptake inhibitors (SNRIs) including Effexor and Cymbalta. According to San Diego, Calif.- based. Compulsive shopping is found among people who take Zoloft, especially for people who are female, old also take medication Comtan, and have Parkinson's disease. This review analyzes which people have Compulsive shopping with Zoloft. It is created by eHealthMe based on reports of 95, people who have. Analysis of COMPULSIVE SHOPPING as a potential adverse side effect of ZOLOFT. In addition to the compulsive shopping I also experienced behaviour that could be classified as 'dangerous'. I would speed (got 2 speeding tickets) and would also find myself seeking many sexual partners during the times I was off Zoloft. It is very tricky to talk to someone in the situation your friend is in -- if it. Mar 7, - Most of these unintended effects are negative; some are just plain weird. And at the forefront of strange results, users have had orgasms while exercising, shopping and yawning. This "yawning orgasm" has been reported by patients using Prozac, Zoloft, Wellbutrin and other antidepressant drugs. Nov 3, - I also suffer from extreme compulsive behavior, including shopping and gambling. Stopping Mirapex stopped the compulsive behavior. Q: During the past 10 years, I have been on various antidepressants, including Prozac (fluoxetine), Zoloft (sertraline), Effexor (venlafaxine), Lexapro (escitalopram). A shopping addict seeks to purchase items to help them cope with life, and intense anxiety is felt in the absence of their addictive activity. Dec 8, - Since starting on sertraline about a year ago (first 50mg and about 3 months ago up to mg) I've noticed some strange side effects including an ago), shoplifting (never did this before at all), biting my finger nails (stopped this over 10 years ago), skin picking (never been a problem), over spending, lying. Nov 23, - "Compulsive shopping and spending are defined as inappropriate, excessive, and out of control," says Donald Black, MD, professor of psychiatry at the University of Iowa College of Medicine. "Like other addictions, it basically has to do with impulsiveness and lack of control over one's impulses. In America. Is Zoloft helpful for Compulsive Shopping? can Zoloft cause Compulsive Shopping? Zoloft is mentioned in 5 posts about Compulsive Shopping.
