Are generics really as good? Healthcare workers people like your pharmacist and doctor, who should know a thing or two about the matter buy generics. If your doctor prescribes you a brand-name drug, you can ask for the generic if one is available, and it will work just as well. Generic drugs, both over-the-counter and prescription medications, are very strictly regulated by the Food and Drug Administration's FDA rules for generics. When asked why, participants said they thought generics would "require higher doses" and "result in more side effects. Same drug, different price Generic drugs, both over-the-counter and prescription medications, are very strictly regulated by the Food and Drug Administration's FDA rules for generics. Generic drug manufacturers have no such costs and they pass those savings on to you. Generic and store-brand drugs are just as rigorously tested, well-formulated, and effective as brand names. Bronnenberg et al You have to believe Generics are a can't-miss bargain, and all you're paying for when you buy a brand-name drug is the pretty package, familiar name, and trusty slogan. Now that you know that in almost all cases, generics are exactly equivalent to the fancy brands, those misperceptions should not hold you back. It turns out all those ads really do have an impact what researchers call "the possible influence of the marketing to patient's response. As it turns out, we can't disregard the power the placebo effect has to influence how well a drug seems to work. The product works fine but arrived without a lid. Generic is as good as the name brand and a LOT cheaper! Kirkland Signature Non Drowsy Allerclear Loratadine Tablets, Antihistamine, 10mg. Claritin (loratadine) for Allergic Rhinitis: "Works wonderfully for both 16 yo and myself for allergy to our new Pug. No sneezing, no watery eyes. Expensive at \$18 for a 24 pack so tried equate Walmart generic which didn't work at all." AllergyJill (taken for 1 to 6 months) January 2, Looking for allergy medicine?
