He said that should be an ample volume, given that the company sold a total of only million packs during the last five years a period that encompassed a bird flu scare as well as the current swine flu outbreak. Please review our terms of use and attribution guidelines. A new study finds that false information on the social media network travels six times faster than the truth and reaches far more people. The increased sales mean higher royalty payments for Gilead Sciences, a California biotechnology company that invented the drug and licensed it to Roche. Best Events Planned For International Women's Day With the ever-growing awareness of important women's issues and causes, celebrating International Women's Day this year is more important than ever before. It's even better when it's a family-run place where Celtic music and conviviality are on the menu. Search the FT Search. Pump up your heart's health by choosing foods that will help reduce cholesterol, lower blood pressure and reduce inflammation. The company that makes the drug told us last week there have been reports of similar episodes in children taking Tamiflu, and also in patients who just have the flu. To continue reading this article and to access exclusive features, interviews, round-ups and commentary from the sharpest minds in the pharmaceutical and biotechnology space you need to be logged into the site and have an active subscription or trial subscription. The Thomson Reuters Trust Principles. Aug 4, - Its not the biggest generic debut of the year, and its far from the biggest copycat threat to Roches lineup. U.S. regulators gave the final green light to Tamiflu copies from Indias Natco Pharma and U.S. partner Alvogen. The generic versions of Roches (\$RHHBY) once. Dec 12, - Tamiflu has ruled the market as a standard flu therapy for a long time. However, despite being the best-selling branded flu drug, Roche may not be worried about competition, as Tamiflu accounted for only a fraction of its total sales. Tamiflu's drug sales topped million Swiss francs (roughly \$ Dec 11, - Over the years, Tamiflu has provided Roche with occasional windfall profits as flu epidemics have led to spikes in demand, most notably during global H1N1 swine flu outbreak in when revenue from the drug hit almost \$3 billion. Since then sales have fallen back and Tamiflu is currently a relatively. Aug 9, - Annual US sales of Tamiflu were \$ million, according to May QuintilesIMS market data quoted by Amneal. This is not the first generic Tamiflu to hit the US market. That landmark was achieved by privately-held US pharma company Alvogen and its partner Indian generics firm Natco Pharma (BSE. Apr 27, - In the US, sales advanced 6%, led by the recently launched medicines. Tecentriq and Alecensa, as well as Xolair and MabThera/Rituxan. Sales of Tamiflu declined due to competition from generics. In Europe (+1%), Perjeta, Actemra/RoActemra and Herceptin were the main contributors to sales growth. Feb 1, - In Europe, sales growth of 4% was driven by Perjeta, Actemra/RoActemra and MabThera/Rituxan. In Japan, sales grew 1% despite the biennial price cuts and a special price reduction rule for best-selling medicines. Tamiflu, Alecensa and Actemra/RoActemra were key sales contributors. In the International.
