All medication is dispensed by a licensed Superdrug pharmacy. If you forget to take your capsule at any time, and it has exceeded one hour since your last meal, then continue to take it at your next main mealtime, as usual. How should it be taken? These symptoms should disappear if you continue your regular treatment and stick to the recommended low-calorie diet. Always follow the directions for dosage from your prescribing nurse, pharmacist or doctor. If you are currently on any other form of medication, make sure to inform your nurse, pharmacist or doctor before taking Xenical. Delivery options Delivery method Cost Estimated delivery You will choose your delivery option at the checkout. Xenical should be taken by adults who have been prescribed it for the treatment of obesity, alongside a low-calorie diet. Your prescription will be issued by one of our in-house doctors who are all UK registered with the General Medical Council. To place your order, fill in our brief medical questionnaire. Always tell your prescribing nurse, doctor or pharmacist immediately if you ever start to feel unwell or any your symptoms worsen as a result of using Xenical. Therefore, if you miss a main meal or have a meal containing no fat, you will not need to take a capsule. Xenical will only take effect when used when your body is digesting dietary fat. Orders placed before 4pm will be dispatched or ready to collect in store the same day. You should take it either immediately before, during, or up to one hour after the meal. In general, losing weight can mean you will have to adjust the dosage of your other medications. One of our online doctors will review your order and approve appropriate treatment. We offer both Xenical and generic Xenical orlistat. As with any medicine, it is possible that you will experience some side effects whilst using Xenical. Buy Weight Loss Treatment.
