[Like us on Facebook.](#) While MSF is one of a select few healthcare providers to offer linezolid to DR-TB patients, in line with national guidelines and protocols, linezolid is usually not provided as a treatment option for patients with extensive drug resistance, due to the prohibitively high cost of the brand-name drug in this country, and the cost constraints on provincial budgets. As long as a pharmaceutical company like Pfizer holds a patent on a medicine, they can charge high prices, and generic companies are prevented from entering the market at a lower price. Recommended articles Citing articles 0. Linezolid and daptomycin were dominant strategies compared to vancomycin. Upcoming events See all events. Special Jam where there will be different rooms to dance Lindy Hop, Balboa,. [Skip to main content.](#) However, South African laws that would allow this to happen are impractical to implement, and have never been tested to access a more affordable version of a brand-name medicine. Linezolid and daptomycin are potentially cost-effective based on the assumptions of the DA model; however, linezolid appears to be more cost-effective compared to daptomycin and vancomycin for MRSA cSSSIs. Efficacy was defined as a successfully treated patient at the test of cure without any adverse reaction. Tuberculosis is the leading cause of death in South Africa, and the country has a growing epidemic of drug-resistant tuberculosis DR-TB. Univariate and probabilistic sensitivity analyses were performed to test the robustness of the model. Currently, the MCC is reviewing generic linezolid for full registration, including the linezolid product MSF will be using in Khayelitsha. The authors have no conflicts of interest to report. Linezolid is under patent in South Africa until August Compare prices and print coupons for Zyvox (Linezolid) and other Skin Infection, Bacterial Infection, and Pneumonia drugs at CVS, Walgreens, and other pharmacies.
