And to avoid being stuck with the high cost of Accutane, speak to your insurance company before filling the prescription and make sure to get any approvals in writing. Potential side effects from Accutane are many, and include possible kidney and liver damage, jaundice, dry eyes, and digestive problems, to name a few. In fact, the danger is so high that women must explicitly agree to take several forms of birth control and to take pregnancy tests while on this medication. This is especially problematic because taking a higher than prescribed dosage of Accutane can be very toxic for your body, and you want to make sure that the pharmacy will fill the prescription correctly. This drug was introduced to the U. After all, severe acne can lead to depression, and worse; lost opportunities for job promotions and career advancement. If your doctor prescribes this medication to you, keep in mind that the cost of Accutane will depend on several factors. Of course, not all patients will suffer these side effects, and for many, the benefits far outweigh the risks. But perhaps the biggest biological cost of Accutane is the risk of damage to the fetus, if the patient is pregnant. The cost of Accutane was of course lower 30 years ago, especially when you consider how much the prices for medical services and drugs have skyrocketed over the last decade. To understand more about the possible harm to your body from this drug, speak to your dermatologist. One such differentiator is where you buy the medication. Severe and cystic acne can be difficult to deal with psychologically and you may be ready to try prescription treatments; but what may surprise you is the high cost of Accutane, as well as how high the prices of other prescription medications can be. Breakouts can be difficult to handle psychologically, so patients often want to block out possible risks because acne treatment is their number one priority. It is common for new patients to ask their pharmacist to fill a generic version of the medication to save on the Accutane cost.

Jun 21, - I'm on Claravis, one of the generic forms of Accutane, and it costs me \$15 copay with my insurance. If you have insurance and its covered, it will cost whatever your prescription co-pay is. Without insurance one month supply of Claravis is about \$ (I can see how much my insurance paid on my Accutane cost (No Insurance). Unfortunately, even generic Accutane is pretty expensive, even for low doses. Without insurance, it can cost \$\$ a month. However, thankfully, our health insurance plan covers most of the cost of my son's medication, and we just have to pay the small co-pay each month. Our insurance company did not give us a.

May 5, - Yes, Accutane (or the generic name, Isotretinoin) is usually covered by insurance for the treatment of acne.
