Zyrtec-D cetirizine with pseudoephedrine is an antihistamine combined with the same active ingredient as Sudafed. A doctor can also talk to you about prescription antihistamines, and if your symptoms persist immunotherapy, which can help desensitize you to what's causing a reaction in the first place. This material is provided for educational purposes only and is not intended for medical advice, diagnosis or treatment. Every effort has been made to ensure that the information provided here is accurate, up-to-date and complete, but no guarantee is made to that effect. Just pay attention to labels so you know which active ingredient you're getting. The easiest way to lookup drug information, identify pills, check interactions and set up your own personal medication records. Most importantly, talk to your pharmacist and a board-certified allergist. GoodRx is not offering advice, recommending or endorsing any specific prescription drug, pharmacy or other information on the site. Select Your Medicare Plan. The active ingredient in Claritin is loratadin, in Allegra it's fexofenadine, and in Zyrtec it's cetirizine. It is used to treat seasonal allergies and relieve nasal congestion and sinus pressure.
