There are legitimate internet pharmacies which sell medications online. If viagra is prescription only, why has Boots been given permission to sell it? Are there legitimate internet pharmacies? Registered pharmacies are obliged to determine whether the medicine is suitable for you through an online consultation. Boots has been given permission to issue the drug in 29 stores, but only to men who clear a suitability assessment performed by a specially trained pharmacist. This is because viagra can potentially interact with common medicines, such as blood pressure and angina medication, or cause complications if used by people with certain health conditions. Men will also have to agree to have information passed on to their doctor and may be asked to attend follow-up sessions with their pharmacist. These are two major risks of ordering drugs online. Unscrupulous, illegal websites could still copy and display this logo so, in addition to this, the RPS recommends that users do the following: . Offline pharmacies have many advantages and one major disadvantage. The Boots assessment includes a health questionnaire and a minute consultation to check a number of factors, such as medical history, blood pressure, cholesterol levels and blood sugar. Ordering the blue pills from Viagra online pharmacy you will need to wait till the package will be delivered. There are no possible ways to buy Viagra over the counter offline. Medical professionals, including trained pharmacists, can apply for permission to issue certain drugs under the Patient Group Direction scheme. To buy Viagra from your local drug store you will need a prescription. So far, Boots is the only pharmacy to have been given such permission. The first is the price of Viagra. They do not take responsibility for your health and life, they do not care about your condition. You cannot check the look of the drug, you cannot check whether it is original or not as well as you cannot check its shelf life. Nov 25, - Risks of Online ED Drugs. The ED drugs and herbal remedies you buy on the internet aren't always what they seem. An FDA investigation found that more than one-third of "dietary supplements" sold for ED actually contained prescription drugs, including sildenafil, the medicine in Viagra. Some ED drugs.
