Azithromycin can still be used to successfully cure chlamydia. Please note that the manufacturer of this medication may differ from that shown on the image above, but the ingredients, benefits and possible side effects of the medication will be the same. You can receive your correct dose of Azithromycin online to avoid the hassle and possible embarrassment of attending a doctor's appointment face-to-face. You should wait at least two weeks after completing your treatment before conducting another STI test to check whether the treatment has been successful or not. We offer a free consultation process where you will be asked to answer questions about your health and medical history. What is Azithromycin Zithromax? Continue browsing or learn more. At euroClinix, our partner doctors can provide you with a safe and effective way to buy Azithromycin online. If the doctor has established that this medicine is safe for you to use, you will be able to purchase Azithromycin to treat your condition. For gonorrhoea; A single dose of Cefixime with Azithromycin is usually prescribed to treat this particular infection, however at euroClinix, we advise the first choice of treatment for gonorrhoea, which is the injection administered at the sexual health clinic or GUM clinic. The medication prevents the infection from spreading further by affecting the bacteria's ability to make proteins and a medical professional will advise the recommended dosage during the consultation. We ask you to complete a quick consultation as part of the order process, which will be treated confidentially and only assessed by one of our partner doctors. Although it's relatively safe for most people to use to treat and cure bacterial STIs, there are certain health conditions with which it's not advisable to take this medication, such as liver disease, kidney disease, myasthenia gravis, a heart rhythm disorder or a history of long QT syndrome. Information on this page. You can also refer to the guidelines regarding how to take Azithromycin and the dosages above, and the patient leaflet attached at the bottom of this page and within your order when it is delivered.
