Jun 17, - Our previous insurance made us get brand name Concerta, and this generic pill looks almost exactly like I remember brand name Concerta looking. Concerta medication with the Mallinckrodt generic (gray oblong pill with M 27) instead of the Actavis brand (gray cylinder ALZA 27) like they normally do. Apr 15, - How does the OROS delivery system release Concerta? The OROS delivery system is similar to the generic Actavis tablets. The tablet has a water-permeable shell with small holes in it; this allows water to enter and push the medication out through the holes as the tablet passes through your body. Sep 1, - Bottom line: As with the Mallinckrodt offering, this generic does not use brand-name Concerta's OROS delivery system; you'll see no laser-drilled hole on the end of these capsules, pictured below. Remember: It is the OROS delivery system that distinguishes Concerta. The box looks like this (the color varies. Dec 31, - strengths of the Trigen Concerta generic. Notice: The pills do not say Alza and they are not the same shape as the brand Concerta. There does seem to be a hole in each table, but that is not indicative of OROS technology. A reader suggests that this looks like an older technology for osmotic release. Dec 9, - Please also see my latest comprehensive post on this topic: [Consumer Q&A on Concerta Generics. Why the concern about the new generics for Concerta? I'll tell you. It can take much trial and error to find the ADHD medication and dosage that works best for an individual. Once it's found, you don't want to. Nov 26, - What should you do if the pills change - especially if they don't work? Check each bottle when you pick up new medicine and ask if you can return unused tablets if they don't work for any reason. Keep track of what each pill looks like and the brand \(which should be on the label\) so you know which versions. Apr 27, - The original generic for Concerta \(from Watson pharmaceuticals\) uses a special technology to time-release the active drug.
