The likelier explanation, Ms. By encouraging patients to switch from generic to brand drugs, coupons effectively impose higher costs on insurers. Get the Upshot in your Inbox. Pfizer, which sells Effexor XR, would lose a sale. Anderson School of Management. The circumvention of insurance plan designs by these coupons has long been suspected to contribute to drug spending and premium growth. This raises spending, too, but for the insurer. Drug manufacturers also offer coupons for drugs without generic competition, but they were not the focus of the study. And Massachusetts has passed laws that ban co-pay coupons for brand drugs with generic equivalents. Please upgrade your browser. You agree to receive occasional updates and special offers for The New York Times's products and services. In , 90 percent of prescriptions that were filled were for a generic equivalent to a brand-name drug, when such a generic was available. Generic drugs are generally regarded as equivalent to their corresponding brand products and are 80 percent cheaper , on average. Dafny says, is that denying consumers access to coupons would cause a backlash. The figure may well be even higher today, according to Leemore Dafny, an economist at Harvard Business School. But in the long term, encouraging consumers to use generic drugs when available which is what insurers are trying to do would reduce drug spending and premiums for everyone. Such coupons are not new. An error has occurred. Venlafaxine ER (Effexor XR) is a moderately priced drug used to treat depression. Generic venlafaxine ER is covered by most Medicare and insurance plans, but some pharmacy coupons or cash prices may be lower. The lowest GoodRx price for the most common version of venlafaxine ER is. Venlafaxine Prices, Coupons and Patient Assistance Programs.
