Some generics hold up better in Generic Valtrex? Feb 1, - I started the generic made by Cipla about a month ago. After taking Valcyte for eight months without having any problems several years ago, I thought that Generic Valtrex would be a breeze. Since my doctor wants noting to do with my medical condition, I ordered the drugs thru an offshore pharmacy. Recently, when Valacyclovir came out, my insurance will no longer approve my Valtrex so they switched me to Valacyclovir. I am taking the same dose I was and I know the Valacyclovir is supposed to be the same as Valtrex only the generic version, but I gave noticed that it does not work nearly as well for Valacyclovir (Generic Valtrex) differences? Your. I haven't had an issue with generic Valtrex. I've been on a daily mg dose since I got off the first 2 week high dose of 2 grams. I did have to take a week of 2 grams recently due to an oral outbreak, but didn't have issues then either (the ones I had were from the surgery I had done). I do know that if you Valtrex vs Valacyclovir? I suffer from shingles, and my insurance company will not accept the brand name of Valtrex, which worked on my shingles perfectly. It really isn't a fault of generic drugs per se, for instance, one could have the opposite problem and have adverse effects with the brand name and be fine with the generic. Valtrex is the dominant brand name, valacyclovir the generic name. Do not take both; My dr did a blood test as part of routine blood work and she said it came back very high for HSV1. I have been . I am pretty good at noticing things on my body, but with these other digestive issues it is hard not to be paranoid. Thank you. no bumps/redness/itchyness etc.just normal i guess my questions are,how good does this Valacyclovir work on reducing transmission only being on it one month . you would have to have a prescription for acyclovir, it's not a generic for valtrex. no you didn't get herpes on your scalp too. herpes lesions on the anal area are.
