It is likely that now that the patent has expired the price of sildenafil will drop. Sildenafil is not suitable for women or children under the age of 18. It is likely that the price of these unbranded versions generics will be lower, meaning that Pfizer will face competition for sales. Once a patent has expired, other companies can produce their own versions of the drug and sell them under this generic name. Viagra was designed to treat high blood pressure and angina. It is available in tablet form in three different strengths and is taken one hour before sexual activity, a maximum of once a day. Viagra prices to drop - sales expected to grow Monday June 24. However, in some cases you may need to pay the full cost of the medication. What does it mean when a drug comes off patent? It covers how things work, what they do, how they do it, what they are made of and how they are made. Side effects Side effects of sildenafil include: Kim Innes, commercial director of Teva UK, is quoted as saying: Because it causes the blood vessels in the body to dilate, the slight increase in blood pressure may mean the drug is unsuitable for those with a history of serious heart or liver disease. Sildenafil is associated with a very small, rare risk of heart problems such as angina, heart attack or heart rhythm problems. Medicines are controlled by patent legislation, meaning a particular company has the exclusive right to market a drug they have discovered and developed. Researchers found that it was not particularly effective for either condition but that it did lead to sustained erections, as a result of temporarily increasing blood flow to the penis. Viagra lost its exclusive patent in the UK in June and is now available legally in the UK under the name sildenafil. Sildenafil is sometimes also known as generic Viagra or generic sildenafil. 'Viagra' is a brand name, 'sildenafil' is the medical name. Generic sildenafil is available at much lower cost, from 1p per tablet. Buy Genuine Viagra from a regulated UK Pharmacy.
