Gary Claxton of the Henry J. Wal-Mart executives, criticized by labor unions and consumer groups that say the company shortchanges its employees on pay and health care, said they started the program to help families and retirees, especially those on Medicare. Last year, they accounted for 56 percent of all prescriptions filled in the United States but only about 10 percent of total prescription-drug sales. Customers tell us all the time that prescription-drug costs are forcing them to make tough decisions. Generic drugs have the same active ingredients as their brand-name counterparts but are much cheaper. Kaiser Family Foundation said pharmacies are always placed at the back of stores in the hope customers will pick up other merchandise along the way to get their prescriptions. They said at news conferences and in telephone calls yesterday that they see these groups struggling daily at the company's pharmacies to pay for medicine. Health-care costs rose an average of 9. Wal-Mart spokesman David Tovar said the company will make money on the sales but will not disclose whether it negotiated with drugmakers, wholesale suppliers or both to make the deal profitable. Retailing giant Wal-Mart Stores Inc. Some of the reductions appear to be substantial. Though the increase in drug prices has been slowing in recent years, largely because of the wider use of generics, it has still outpaced inflation, health-care analysts and industry trade groups say. Wal-Mart probably hopes to benefit in overall sales, but also in drug sales because customers bringing in generic prescriptions are likely to fill their brand-name prescriptions, too, he said. Simon, executive vice president for professional services at Wal-Mart. It is something we intend to make a profit on," he said. Inflation during that period was around 2.
