We've become so dependent on insurance companies for all of our health care expenses that most of us including doctors have lost track of what anything in health care actually costs. This means that our prescription costs dominate our out-of-pocket medical spending. The Wal-Mart program has alerted the general consumer to the fact that generic substitutes are valuable money savers. Doctors still use fax machines. At most chain pharmacies, if you show them an insurance card, you're forced to play by your insurance company's rules. These drugs were already very inexpensive. Ask your physician about prescribing twice the dosage you need daily, and splitting the pill in half. And in these examples, they're refusing a medical service altogether, and not for any good reason. Or even pay less for your prescriptions next year? The Wal-Mart plan has spurred other retailers to create programs of their own. Dependence Through Denial and Deception:Generic pantoprazole is covered by most Medicare and insurance plans, but some pharmacy coupons or cash prices may be lower.
