See also: Generic Zantac , Generic Zantac Zantac is a brand name of ranitidine, approved by the FDA in the following formulation(s). Zantac (ranitidine) belongs to a group of drugs called histamine-2 blockers. Zantac works by reducing the amount of acid your stomach produces. Zantac is used to treat and prevent ulcers in the stomach and intestines. It also treats conditions in which the stomach produces too much acid, such as Zollinger-Ellison syndrome. What is ranitidine? Ranitidine is a drug that's available in a prescription form and an over-the-counter form. Prescription ranitidine comes as an oral tablet, oral capsule, or oral syrup. Ranitidine oral tablet is available as the brand-name drug Zantac. All prescription forms are available as generic drugs. Generic drugs usually ?About ?Interactions ?Warnings ?Dosage. Ranitidine, sold under the trade name Zantac among others, is a medication that decreases stomach acid production. It is commonly used in treatment of peptic ulcer disease, gastroesophageal reflux disease, and ZollingerEllison syndrome. There is also tentative evidence of benefit for hives. It can be taken by mouth, Onset of action?: ?5565 minutes (mg dose);. Compare prices and print coupons for Ranitidine (Zantac) and other Heartburn, Gastric Ulcer, GERD, and Duodenal Ulcer drugs at CVS, Walgreens, and other Generic Zantac RANITIDINE is a type of antihistamine that blocks the release of stomach acid. It is used to treat stomach or intestinal ulcers. It can relieve ulcer. This is Walmart's brand of Zantac. I had my first episode of acid reflux about a month ago and it was so bad that I wanted to be SURE that I never had to deal with that again. I raised the pillows on my bed, better manage evening eating and picked up a bottle of these. I knew I wanted "maximum strength" and this was the best. Brand Names: Taladine, Zantac, Zantac , Zantac , Zantac 75, Zantac EFFERdose. Generic Name: ranitidine (Pronunciation: ra NI ti deen). What is ranitidine (Taladine, Zantac, Zantac , Zantac , Zantac 75, Zantac EFFERdose)? What are the possible side effects of ranitidine? What is the most important. I ran out of Zantac last week and was in another part of town running errands so I stopped at the local pharmacy. They had generic ranitidine and it was much cheaper than the brand name version so I bought it and started using it. Later that day, I had a horrible case of reflux and bloating. It was awful. I have taken ranitidine mg (same as Zantac) for many years for GERD, and it works for me very well. Having been a Costco member for years, I am familiar with the Kirkland Signature brand, and respect it as being high quality, whatever the product, so I am very glad to be able to get this brand, at this price, sent right to.
