One more step Please complete the security check to access www. You should know Answers to your question are meant to provide general health information but should not replace medical advice you receive from a doctor. Normally there has to be a medical reason for this, like being allergic to one of the in-active ingredients in fosamax or something else along those lines. I know quite a few people who have had success with this. No answers should be viewed as a diagnosis or recommended treatment for a condition. If you are at an office or shared network, you can ask the network administrator to run a scan across the network looking for misconfigured or infected devices. Usually you just have to explain your reasoning for wanting to stay on actonel, and have your Dr fill out the form. Gonter on this topic. If you are on a personal connection, like at home, you can run an anti-virus scan on your device to make sure it is not infected with malware. Fosamax and actonel, even though in the same class of drugs, may have slightly different benefits to some individuals, but you would need to know your medical history to see how you might be affected by it, if at all.
