In all, the prices of more than a dozen generic dermatology drugs have increased significantly since , according to the distributor Cardinal Health, which tracks price fluctuations in generic drugs. But not everyone agrees. Due to inactivity, you'll need to go back and start the process from the beginning. Many doctors prescribe the drugs without a second thought. James Kedrowski, the interim chief executive of Taro, said the company did its best to offer fair prices to customers. The question of whether prices will stay high has become a flash point in a dispute between Sun Pharmaceuticals, which owns two-thirds of Taro, and minority shareholders who have argued that the shares are worth more than Sun is offering. Perrigo and Sandoz declined to comment on pricing strategies. Events Guide Television Theater Video: And since many patients have prescription drug coverage, they also often ignore the cost. In July, a special committee of the board rejected a buyout bid by Sun, describing the offer as inadequate. Perrigo, Taro and Fougera, which was recently acquired by Sandoz , the generics division of Novartis. Please upgrade your browser. The situation can create a lucrative opening for some companies, especially in a low-profile corner of the industry like dermatology, where price increases might not attract broader notice. Thank you for subscribing. The added revenue from the higher prices has improved the bottom lines of the handful of companies that make such drugs, and has even figured into a contested buyout of one of the companies by an India-based drug maker, Sun Pharmaceuticals. Please try again later. The price of the cream used by Mr. View all New York Times newsletters.
