Let's say your mind wants your hands to execute a function like holding a pencil to write a word, but all the motor coordination allows you to do is simply make a pencil mark. Other side has 5 numbers and symbols per line for math. Communication skills on a letter-board or a key-board is essentially the same motor skill - Pointing. This book will describe ways I have found to successfully work with verbal and semi-verbal students with Autism who may have functional speech but are struggling with academic progress. This book includes chapters to map a communication formula. Success comes with practice and practicing the steps of communication in this book will help teachers ,students and parents. Short stories, fables, poems fill the pages of this edition. A student who can look at the iPad may not have the same visual stamina to look at a printed text on a page. See product description for the "Large A-Z stencil" also available through our online store. Included are several video clips of 1: Not all students need the large stencils, so we recommend that you only order this product if they are certain that it is needed. We will provide, upon request, the "shipped date" for any order domestic or Intl if it has been 7 business days excluding mondays or holidays or more since the order was originally placed.
