So I'm wondering how much those of you who use it give to your kits and where you get it from. Apr 7, Messages: Add Your Review Value for money. She offered us a prescription to get filled either online or locally However I now see a prescription isn't needed after all. Chances are it's cheaper. Here is a PubMed abstract of a comparison between Famotidine, ranitidine and cimetidine. I am not sure if this is still the case I believe Zantac is as well tolerated as Famotidine, though I have taken both myself in the past, and got on better with Famotidine than ranitidine, in terms of fewer side effects. You can still get famotidine 20mg from the pharmacist but oddly it requires a prescription whereas the 10mg version didn't.
