So when Lipitor's patent protection came to an end Nov. The program is limited to privately insured people, though, because government programs like Medicare say such discounts could violate antikickback laws and lead to higher health spending. Instead, any prescription claims for generic atorvastatin will be rejected with a notice saying: Pfizer spokesman MacKay Jameson says the deals allow patients to get the brand-name medicine at generic prices. Even at the lower price, Pfizer has a huge margin because of the relatively low cost of materials for Lipitor, Bernstein Research estimated. The discount is also extending to many Medicare prescription drug plans that will dispense Lipitor even if patients ask for generics, according to a memo released by an advocacy group called Pharmacists United for Truth and Transparency. It seems to be working. What's tricky is that Pfizer, the biggest drug maker in the world, seems to be using its muscle to make deals with the aim of undercutting the sale of generic Lipitor and limiting consumers' access to it, Gordon says. Generic statins the class of cholesterol-lowering drugs to which Lipitor belongs are just as good for 95 out of people, Santa says. Since the statin entered the market in , it's earned New York-based pharmaceutical giant Pfizer Inc. With mail order increasingly dominant accounting for an estimated 30 percent of Lipitor sales those deals are important. Tony Salters, a spokesman for Medicare, said he could not comment. But contrary to popular belief, generics aren't identical to brand-name drugs, says pharmacologist Joe Graedon, co-creator of the consumer health column the People's Pharmacy.
