What if I forget a capsule? Select your preferred treatment You'll complete a short online health assessment and select your preferred treatment. It can also be prescribed to patients with a BMI of over 28 if they have a weight related health problem. Your Orlistat capsules should be taken immediately before, during, or up to one hour after each of your three main daily meals: We take precautions that other online providers don't, in order to provide you with a convenient and discreet service. If it has been more than one hour since your last main meal, wait until your next main meal to take your next capsule. If you do not lose weight after 12 weeks of taking orlistat, contact your nurse or doctor for advice as you will need to stop taking it. A Brand You Can Trust. Consult your doctor if you notice any serious side effects as a result of taking orlistat. Only take an Orlistat capsule with your meal if your meal contains fat, as Orlistat will only work when dietary fat is being consumed. Orlistat should be taken in conjunction with a nutritional, low-calorie diet low in fat, a healthy lifestyle and regular exercise. Orlistat should be taken in combination with a low-calorie, low-fat diet.
