Viagra-style drugs bought online may be counterfeit, contain unsafe levels of active ingredients or have other harmful substances added to them. The RPS has developed a logo that will appear on the first page of registered online pharmacies. If you are a member of the general public: Several other newspapers reported the move to make the erectile dysfunction drug available for sale at selected Boots pharmacies. CentOS mainly changes packages to remove upstream vendor branding and artwork. So far, Boots is the only pharmacy to have been given such permission. The fact that you are seeing this page indicates that the website you just visited is either experiencing problems or is undergoing routine maintenance. For example, if this website is www. Unscrupulous, illegal websites could still copy and display this logo so, in addition to this, the RPS recommends that users do the following: Registered pharmacies are obliged to determine whether the medicine is suitable for you through an online consultation. Unscrupulous, illegal websites could still copy and display this logo so, in addition to this, the RPS recommends that users do the following: Even if a product on sale is genuine, medicines can interact with each other and many need to be accompanied by safety checks and advice from qualified, regulated clinical staff. Currently, none of these pharmacies can provide viagra without a prescription. Viagra, like all drugs, has potential side effects so patients may need follow-up assessments after they begin taking the drug. What are the risks of buying viagra online?
