Medicaid is supposed to pay for the urine tests for its low-income clients, according to the Kentucky Cabinet for Health and Family Services. Other manufacturers have jumped on the bandwagon since then so the mg product is now generic. The Vicodin product manufacturer notified the healthcare community out about this formulation change, mentioning that all strengths of hydrocodone will now be combined with mg of acetaminophen. Stivers on teacher walk-ins: Forget about the drug abusers for a minute because there are also millions of patients who suffer from chronic pain that receive legitimate prescriptions from their doctor. The drug is actually a combination of the opioid hydrocodone along with acetaminophen, a nonprescription analgesic. As for the high price of urine tests, Vest said, "We don't really have any control over the costs. Relatively little attention has been paid to the impact on patients. Last week, Burton's insurance company, Bluegrass Family Health, sent her a letter. The letter identified three tests conducted on their urine one to determine that the prescribed drug was in their systems and two to determine that unrelated painkillers were not present. Patients must obtain an original prescription from their doctor each time they need a new supply. But critics say they warned last spring that HB 1 intended to crack down on the illicit sale of prescription drugs would treat everyone like a potential felon, including doctors and patients engaged in legitimate medical care. These problems were predicted and discussed in the legislature, but they obviously did not carry the day.
