Tap here to turn on desktop notifications to get the news sent straight to you. It is assumed that if they can achieve same blood concentration, they will achieve same results. So yes, they are very similar in terms of the active ingredient. Are you sure you want to add all of these topics? In order for us to best serve you and provide you with the best information, can you please tell us if you currently have health insurance? That generic is given a period of time of exclusivity for about six months. At the end of that time period, any manufacturer that can prove that it can achieve the same drug concentrations in the blood that the brand name does can make a generic. Is it dangerous to your health to switch back and forth? What is the difference between generics and brand names? Don't have a HealthSavvy account yet? But you can't know for sure that your child has the exact same thing -- or that the dose is right, or that it isn't going to interact with something else they are taking, or cause trouble in some other way. Send using Facebook Share on Facebook. There has been a lot of debate about the use of generic drugs vs. Yes. The following products are equivalent to Diovan: valsartan tablet;oral.
