Violently shake the water and wellbutrin after putting the cap back on the pill bottle. Remember limit yourself and be safe! Grab a small juice glass or shot glass. You're not going to find many people with experience with this because it's not something anyone typically does. Do not over microwave. Here's how to cold water extract the Bupropion: Depending on which preparation you're shooting, it could really be fucking you up. You need to stop immediately since you said you are already having physical side effects. I find it quite enjoyable but highly addictive. This is becoming quite popular in my area. Impressive and interesting, but not something to do on any kind of regular basis. I will try this one more time without the benzos in the mix but only for experimental purpose, in no way i could imagine injecting this more then once in a blue moon I believe him, don't think he's a troll. Ok, so it gives you a rush but are you smoking less? You didn't answer my first question.M B9 (Bupropion Extended Release (XL) mg) Pill with imprint M B9 is White, Elliptical / Oval and has been identified as Bupropion hydrochloride extended release (XL) mg.
