What your medicine is for There are several different reasons why your doctor may have prescribed Depo-Provera for you. There is some chance that you may accidentally fall pregnant with any form of contraception. What can I do to prevent this in the future? This chance is very low if Depo-Provera is used exactly as explained in the section How and when to use Depo-Provera. Any prescriptions from any other state cannot be filled and will be returned in the mail. The active ingredient is suspended in the following inactive ingredients: In the event that you do not do this, the product will be deleted from your order and the balance of your order will be dispatched. This pack contains one vial. Contraception Depo-Provera is an injectable form of contraception that protects you from pregnancy for 3 months. This is a condition in which cells from the lining of the uterus womb grow in places outside the uterus, usually in the pelvis. Do not administer this medicine to yourself. They are trained to help you to understand why you are using this medicine. The main action of medroxyprogesterone acetate is to prevent the release of eggs from your ovaries during your menstrual cycle. Please check your prescription as alternative brands are not available in this case. Endometriosis Your doctor may have prescribed Depo-Provera for the treatment of endometriosis. When a prescription is dispensed as a private prescription you do not receive any safety net contribution toward your PBS safety net. For more information on the dose, see the section in this brochure called low and when to use Depo-Provera. Authority may be obtained by telephone to Medicare Australia known as "phone approval" or in writing from an authorised delegate of the Minister for Health. S8 Note - This prescription item is Schedule 8 and can only be supplied on a script from a registered doctor in Queensland. I agree with the terms and conditions of ordering this product. How much does the birth control shot cost? How much the birth control shot costs depends on a couple of different things, like where you live, if you have health insurance, or if you qualify for any programs in your area that help pay for the shot. In most cases, you'll need an exam when you get your first shot, which may have. Oct 10, - The birth control pill, patch, and ring usually cost about \$20-\$50 per month. The birth control shot costs about \$30-\$75 per shot. The shot protects against pregnancy for 12 weeks. Some health care providers require that women have exams before they're prescribed hormonal birth control, and others do. Mar 5, - The Cost: While the upfront cost is a whopping \$ to \$1., the fact that it lasts so long means that the average annual cost can be under \$ cheaper than condoms. The cost goes up for users who rely on the IUD for shorter periods. Shot (Depo-Provera): Getting a hormone injection every three. Feb 7, - Without insurance, these costs could skyrocket. Depo-Provera, or the shot, is a slightly less long-term birth control method than the IUD or the implant (both of which last for several years), but is still more long-lasting than the Pill Again, those with insurance can qualify for the shot for free or at a low-cost. Very bad irritation where the shot was given. WHAT ARE SOME OTHER SIDE EFFECTS OF THIS DRUG? All drugs may cause side effects. However, many people have no side effects or only have minor side effects. Call your doctor or get medical help if any of these side effects or any other side effects bother you or do not. Depo Provera is costing me my relationship with my husband. After 7 years married (today) he confessed to me to be emotionally drained wow that's because we never have sex. And when we do it feels to me like a job. I don't enjoy it, I want it to be over fast. I definitely NOT GETTING my next shot. I guess I'll go back to. Feb 22, - The birth control shot, or Depo-Provera, is a hormonal birth control method used to effectively prevent pregnancy. The hormones prevent ovulation the process when the ovaries release an egg and thicken cervical mucus. With that being said, Depo will be % effective in preventing pregnancy. Birth Control Injection. Contents. What Is The Birth Control Shot? How Much Does Depo-Provera Cost? How Does It Work? How Effective Is It In Preventing Pregnancy? How Do I Get The Injection? When Should I Start Treatment?
