Of course, it is always a good idea to talk to your doctor before trying any new medication. Sakina Bajowala, an Illinois-based allergist, explains. Consumer Reports reviewed all major allergy medications and found that monthly costs range considerably depending on which one you choose. You just have to answer a few basic questions to figure out which to choose. The same antihistamine in Zyrtec, for example, is available as Aller-Tec at Costco, as Wal-Zyr at Walgreens, or even totally "unbranded" almost anywhere. Pseudoephedrine's usefulness when making methamphetamine means that in the United States, these drugs need to be purchased directly from the pharmacist with a government ID. What about generic brands and cost? Lauren F Friedman , Tech Insider. Zyrtec acts the fastest usually within one hour but is also the most likely to make you drowsy, so avoid driving, alcohol, and sedatives as you figure out how you react. Antihistamines combined with a decongestant are usually marked with a "D. A previous version of this story appeared in What's the difference between Allegra, Claritin, and Zyrtec? Most importantly, talk to your pharmacist and a board-certified allergist. Claritin is long-acting, with effects that last for 24 hours. Claritin-D, Allegra-D, and Zyrtec-D all contain a decongestant called pseudoephedrine, the same active ingredient that powers Sudafed. It is a generic and is available with a prescription or over-the-counter. Member's Mark Formerly Known As Simply Right Cetirizine Hydrochloride Allergy Tablets, 10 mg Count.
