To pay less, the patient literally has to go back to their doctor to get a new prescription. Find the best auto, life, home, health rates Enter Zip code:. So we can conclude how much drug companies are profiting from this travesty. Some were taking several tablets a day and even mixing in over-the-counter acetaminophen products, far exceeding the 4 gram limit. Prescription drug abuse is spreading nationwide, but it is particularly rampant in cities like Los Angeles, Miami, Chicago and New York, federal officials say. So in , in the name of liver safety, FDA asked companies to change their formulation , cutting back on the amount of acetaminophen in Vicodin-like products to mg or less per tablet. Big Data knows you're sick, tired and depressed. Traffickers recruit Medicare beneficiaries who are willing to sell their monthly drug supplies for cash, Opferman said. But two years ago, prescription drugs won that dubious distinction, according to Rusty Payne, a spokesman for the Drug Enforcement Administration. The Vicodin product manufacturer notified the healthcare community out about this formulation change, mentioning that all strengths of hydrocodone will now be combined with mg of acetaminophen. Analysts said the company was probably gambling that the lost revenue from lower-priced drugs will be offset by increased traffic in its stores. And there's big money in it for criminals. A boxed warning about severe liver toxicity was also added. The Vicodin manufacturer had an idea. Card type Credit type Card issuer. Hydrocodone/acetaminophen (Vicodin, Lorcet, Lortab, Norco, Xodol, Hycet) is inexpensive drug used to treat moderate to severe pain. It is more popular than comparable drugs.
