For epilepsy, this includes focal seizures, tonic-clonic seizures, and seizures in Lennox-Gastaut syndrome. In bipolar disorder, it is used to treat acute episodes of depression, rapid cycling ?LennoxGastaut syndrome ?Phenyltriazone ?Sodium channel. We have Blue Cross and because my dau gave in so easily to generic w/o calling the dr first, we ended up in the situation we did. She was in college then and thought it would be cheaper for us. Keep us posted on here as to how it goes and fight for the right for your dau. to have the lamictal. If she has to try the generic first. Dec 19, - Brand Lamictal is one of the most expensive drugs on the market, but you can petition your insurance company and prove that the generic version does not work and sometimes they will approve the brand name. This was because when generic Lamictal (lamotrigine) came out, there were some concerns. Apr 29, - I did a LOT of research to check on the efficacy of generics. Generics work for most people- my mom, a friend and many people who read this blog are on generic Lamictal with no problems. ... So I'm going to say good night and hope that each day with this product out of my system is what does the job. Jan 15, - A quick look at the label tells you that instead of the brand-name medication you're used to, this time you received a generic. Does it matter? For most people, it shouldn't. If you're taking three or four different pills, there's a greater chance you're going to get it wrong when filling your pill box, she says. Jun 26, - Dr. Reddy's has launched Lamotrigine Extended-Release Tablets, the generic version of GlaxoSmithKline's Lamictal XR. Aug 5, - But for whatever reason, this one did not work for me and I'm so glad to have some resolution b/c I felt like I was going a little crazy! I have been taking Lamictal for several years and it has been the best med that has ever helped me. I hope that the generic will prove good for everyone else I really do but IF. Mar 8, - Q. I am a mid-level prescriber (a clinical nurse specialist) who has submitted 37 adverse event reports to the FDA's MedWatch program regarding generic lamotrigine. Most of the adverse events involved a loss of response, but many involved a loss of response and additional side effects that did not occur.
