Not all students need the large stencils, so we recommend that you only order this product if they are certain that it is needed. Get this handy 40page booklet with simple steps on how to develop reading skills. As a Parent I have found it useful to help my son grow a reading habit. Many students who can read may not have enough visual tolerance to hold a book in their visual field and grow the habit of reading. This groundbreaking book describes Soma's innovative technique, and for the first time in print, offers parents and educators a step-by-step guide to implementing Soma's life-changing teaching methodology Rapid Prompting Method RPM. Number Stencil Board with math symbols Soma uses the number stencil board numbers , and the symbols of addition, subtraction, multiplication and division as an alternative to the primary number board without the math symbols. This book is an earnest effort in "how" to plan the first skill goals that go beyond pointing skills. Successfully submitted orders are sent an email receipt immediately after placing an order. The lessons, exercises, and methodologies outlined help individuals learn about money in a meaningful way, how to use it in everyday scenarios, and how to create different money combinations to achieve the same outcomes. This dvd is an update to the previously offered dvd recorded in Soma Mukhopadhyay presents the theory behind Rapid Prompting Method and why it is effective as an educational method. Numbers are not included in this set. Just as it is important for the mind to be stimulated through academics and communication, it is important for the body to continue learning skills so that "Mind and Body" find a way to unify. Full A-Z Letter Board Stencil The full A-Z letter board stencil measures at 11"Wx8"L is suggested for students with adequate fine and gross motor control and are moving towards improving accuracy and speed with pointing to spell.
