When you realize those symptoms began when you switched from your brand-name antidepressant to its generic version. You are, after all, "mentally ill. Although both pills started out with equal amounts of active ingredient bupropion , according to the ConsumerLab report, the large upfront dose from the generic could account for the anxiety, irritability and nausea -- all known side effects of too high a dose of bupropion. The FDA-approved generic, Budeprion XL , had arrived on the market last December, and in the weeks and months that followed, complaints began to appear all over Internet health boards. Those who then went back on the brand-name medication reported that their symptoms disappeared. It discovered that "generic bupropion XL released its ingredient at a very different rate than Wellbutrin XL. Generic drugs' hidden downside. Yet the true insanity lies in the way many medical professionals, convinced by the FDA, keep pushing the myth that "generic drugs are identical to their brand-name counterparts. To be sure, consumers benefit financially as well. I wrestled with this question a few months ago when my doctor prescribed Sertraline, a Zoloft generic, to treat my depression. I'd done well on Zoloft in the past and had seemed to do all right when I was switched to a generic, but I'd only taken it for a few months before I went off the medication entirely. Zoloft received an overall rating of 6 out of 10 stars from reviews. See what others have said about Zoloft, including the effectiveness, ease of use and side effects. Zoloft (sertraline) reviews from people of your age and gender for uses like Anxiety and Bulimia nervosa. Reviews and ratings for zoloft. reviews submitted with a average score. ? reviews ? reviews ? reviews. "I took Zoloft (generic) shortly after my anxiety got horribly severe. I took lexapro a few years ago but didn't like the sexual side effects. Doctor put me on Prozac but that appeared to put me into a deep depression. I had never had depression, just anxiety but I couldn't get out of bed I was just paralyzed. After a few weeks of. I've always resisted taking any medication and never wanted to give into it. My day to day was getting so bad that I would cry at the drop of a hat, over practically nothing. I was argumentative to everyone and always negative. My doctor started me on 25mg of Sertraline (generic) and its like the heavens have opened up. Find patient medical information for Zoloft Oral on WebMD including its uses, side effects and safety, interactions, pictures, warnings and user ratings. Zoloft. GENERIC NAME(S): Sertraline.
