Learn more about health insurance and birth control. I agree with the terms and conditions of ordering this product. Zip, City, or State We couldn't access your location, please search for a location. How much the birth control shot costs depends on a couple of different things, like where you live, if you have health insurance, or if you qualify for any programs in your area that help pay for the shot. During the menstrual cycle, these cells may grow and break down in the same way as those in the lining of the uterus womb. X in a circle Want the shot? The pharmacist will determine if this product is appropriate for you and if so, approve the order. This chance is very low if Depo-Provera is used exactly as explained in the section How and when to use Depo-Provera. Contact your nearest Planned Parenthood health center for more information. There is an alternative brand to choose from in the table below. Authority may be obtained by telephone to Medicare Australia known as "phone approval" or in writing from an authorised delegate of the Minister for Health. This is a chemical similar to but not the same as the natural hormone progesterone. You can visit your doctor or your nearest Planned Parenthood health center to get the shot. In endometriosis, medroxyprogesterone acetate will help to stop the growth of the cells found outside the uterus. The main action of medroxyprogesterone acetate is to prevent the release of eggs from your ovaries during your menstrual cycle. There is some chance that you may accidentally fall pregnant with any form of contraception. How do I get the birth control shot? You can visit your doctor or your nearest Planned Parenthood health center to get the shot. How much does the birth control shot cost? Oct 10, - What is the price range for birth control? The birth control pill, patch, and ring usually cost about \$20-\$50 per month. The birth control shot costs about \$30-\$75 per shot. The shot protects against pregnancy for 12 weeks. Some health care providers require that women have exams before they're prescribed. The Depo-Provera shot is an injection you get once every 3 months. It's a safe and convenient birth control method that works well if you get it on time. MEDROXYPROGESTERONE contraceptive injections prevent pregnancy. They provide effective birth control for 3 months. Depo-subQ Provera is also used for treating pain related to endometriosis. The lowest GoodRx price for the most common version of medroxyprogesterone is around \$, 61% off the average. May 12, - While birth-control pills and IUD's are common contraceptives, many clinics also offer Depo-Provera contraceptive injection, a shot of progestin that hinders or prevents the ovaries from releasing eggs. Women using Depo receive a shot every three months, and each shot can cost anywhere from \$ Birth control injections are up to 99% effective when given on schedule. We make it easy to manage, with practitioners who can administer the injection 7 days a week. Just stop in with your prescription or vial when it's convenient for you. Price list. On this page. Before your visit During your visit. Find locations with this. WARNING: Using this drug for birth control or pain caused by endometriosis may cause bone loss. Bone loss is greater the longer the drug is used. It is not known what the effects will be on bones when used in teenaged and young adult women. Do not use this drug for birth control for a long time unless other options will. Aug 27, - [Visit the U.S. News Personal Finance site for more insight and money management tips.] Shot (Depo-Provera): Getting a hormone injection every three months prevents women's ovaries from releasing eggs.
