New Changes in Regulations for Certain Prescription Painkillers Have you heard about recent changes related to the regulation of certain prescription painkillers? Ask your pharmacist for how the new DEA ruling might affect your tramadol prescription. If you have questions about filling a prescription for hydrocodone combination products, contact your pharmacist. Schedules range from I to V. Additional state-specific regulations may affect how you can refill your prescription for tramadol. Additional regulations in your state may affect your prescription for hydrocodone combination medications. New regulations for dispensing hydrocodone combination products will take effect October 6. What can I expect when I go to fill a prescription for hydrocodone combination products? The DEA requires that all tramadol prescriptions must be filled according to the new regulations beginning August 18. Prescriptions written prior to October 6 and those that have refills may continue to be filled as written on the original prescription or until April 8, whichever happens first. Many states do not allow hydrocodone combination product prescriptions to be called in, faxed, or sent electronically to the pharmacy. Are there any risks to taking aspirin? For drugs and substances approved for medical uses, Schedule II is the most restrictive category with the highest potential for abuse or dependency. Refills of hydrocodone combination products will require a new prescription for each refill. If aspirin is taken at high doses and for a long time, it can slowly damage this layer. This damage can lead to bleeding. Aspirin can increase the risk of bleeding in the stomach, small intestine, and brain. Generic hydrocodone/acetaminophen is covered by most Medicare and insurance plans, but some pharmacy coupons or cash prices may be lower.
