I have been on citalopram and most recently sertraline, and have been on a variety of generic brands for both medications. I'd done well on Zoloft in the past and had seemed to do all right when I was switched to a generic, but I'd only taken it for a few months before I went off the medication entirely. I was sick last night and I've had headaches too. I'm pretty sure that most of it is psychosomatic as the active ingredients are always the same. Home Frequently Asked Questions. This topic has been mentioned a few times about nearly all meds. Seizure Led to FloJo's Death. His scores make his case. Strange though if it's all same ingredients. The Graedons also contacted ConsumerLab. Only difference so far is that the packaging is a lot more vibrant. It isn't always up to the chemist The FDA, in October, confirmed that it was investigating but has yet to issue a comment or findings. But that's just me, everyone else I know on srris take different brands all the time with no difference. And I did some research. To be sure, consumers benefit financially as well. I am going to ask my GP to change me to branded I cant be coping with this every time I get a new packet: Many insurers won't cover brand-name drugs at all if there's a generic available. Dec 10, - 4 Answers - Posted in: zoloft, sertraline, generic - Answer: There could be a difference big enough that would affect you. I've heard Have been taking name brand Zoloft mg for years. Oct 29, - Sertraline (Zoloft) is an antidepressant taken by millions of people every day. Reports are cropping up that some generic formulations may pose problems. Here's what I've found out about the difference between the two. When I first started taking "zoloft", I was actually taking the generic version sertraline. I felt like it did about as much as any of the other antidepressants have done. One month, I had my prescription filled at a different pharmacy than I usually use. Within a few. Nov 3, - I: Definitions Sertraline is the active ingredient, and is considered the defining feature of the SSRI antidepressant Zoloft. All antidepressant pharmaceuticals involve more than just the active ingredient, whether they are in a pill form, a shot, What is the different between the Prozac and Zoloft? I did some reading and saw people noticed a different between the generic and name brand drug. I'm wondering if anyone can share their experience with me if they have tried both? I'm willing to pay for the name brand if it will make me feel better but would like to know if others felt a difference between the. Dec 17, - your doctor, pharmacist and health insurance provider insist that you're wrong, that there is no difference between brand-name drugs and their generics, I'd done well on Zoloft in the past and had seemed to do all right when I was switched to a generic, but I'd only taken it for a few months before I went off. I know the packaging says both Zoloft (Brand Name) and Sertaline (Generic) are the same, says the FDA, yada yada, but we all know that brand vs. generic isn't i want to add that difference between zoloft (pfizer) and generic depends % about who is making the generic one. at least on my country. Oct 24, - So there should not be a problem caused by swopping between generic forms of the same drug. Amd after a week, any minor differences should have become ironed out and no longer noticeable. SO maybe check with your GP, especially if there are other symptoms, as to what may be causing this. Nov 23, - Sertraline is the generic name of Zoloft. Xanax is categorized under benzodiazepines while Zoloft is categorized under SSRIs or selective serotonin reuptake inhibitors. Xanax and Zoloft work the same in inhibiting depression by the production of the happy hormone which is serotonin and allaying anxiety. Nov 28, - Let us compare the differences between these two drugs. The generic name of Zoloft is Sertraline while the generic name of Celexa is Citaprolam. Both Zoloft and Celexa are SSRIs or selective serotonin reuptake inhibitors. Celexa was created during by the Lundbeck pharmaceutical company. Zoloft.
