Story first published on: In fact you can request Propecia online through the LloydsPharmacy Online Doctor service for the following prices:. As they both contain the same active ingredient, they should be equally effective. Propecia only affects hair growth on the head, and not on any other parts of the body. Possible side effects of Finax include: However, it is still a medical emergency and needs to be treated as one. According to clinical research, when one tablet was taken every day by men aged with mild or moderate hair loss, Propecia was effective at slowing or reversing hair loss in 9 out of 10 participants. By blocking the effect of DHT, Propecia slows down hair loss and in some cases even reverses it. One of our doctors will then read your responses and evaluate whether you are suitable for treatment. It is important to bear in mind that Propecia is not a permanent cure for male pattern baldness, for this reason, hair loss should be expected to resume six months after treatment has ceased. Finax is an exceptionally effective drug in treating male pattern baldness as one of the first medications approved for this use.
