Generic Viagra is the world's most popular medication for the effective treatment of male erectile dysfunction (ED). Generic Viagra (Sildenafil Citrate) is identical to brand name Viagra in quality, strength, dosage and safety. Generic Viagra is the original and proven oral treatment for ED and has an excellent safety record. There is generally little difference between brand name and generic medications apart from the price tag. Both contain the labelled quantity of active component. They generally differ only in non-active components like fillers, colouring and binding agents. It is the affordability of generics that appeals most to our customers.
