For Anxiety: "I was on generic Lexapro for 2 years and didn't see any benefit from it when it came to anxiety. Reason for the score of 7 is because it did reduce the highs and lows and made everything meh. Side effects as everyone else, weight gain, sexual side effects were horrible, and I couldn't cry if I had to, like I could ?Escitalopram User Reviews for ? reviews ? reviews ?40 reviews. "I was on generic Lexapro for 2 years and didn't see any benefit from it when it came to anxiety. Reason for the score of 7 is because it did reduce the highs and lows and made everything meh. Side effects as everyone else, weight gain, sexual side effects were horrible, and I couldn't cry if I had to, like I could get sad. I switched to Lexapro (generic) after a week and it helped the sickness tremendously. I have been on Lexapro for about a month and a half now and it is really just starting to work. It is helping a lot with my anxiety but I am having some common and not so common side effects. The common: difficulty orgasming (this was. Sep 28, - Hi there. My doctor prescribed me generic Lexapro (escitalopram) for mild situational depression and generalized anxiety. I have read many negative reviews about the generic versus the name brand, but most of those reviews seem to come from people who switched from the name brand to generic Does Lexapro 10mg make you feel high when you. I am due to start taking Escitalopram 10mg, but thinking of halving these for the first week, as scared of side effects. Any advice . So I went to the doctors and he suggested lexapro as it would have less side effects off sertraline. So today I After 3 weeks on 10 mg generic Lexapro and as of yesterday on 20 mg. I'm feeling. Reviewed escitalopram on 2/27/I've tried Lexapro and now take a generic version called Escitalopram Teva. For the first year I have been on Lexapro I had awful night sweats and sweating as a side effect, often waking up with drenched clothes and pyjamas. However it does help keep my anxiety and depression. Lexapro (escitalopram) is good for treating depression and anxiety. It is less likely Drug class: Mental health; Rx status: Prescription only; Generic status: Lower-cost generic available (escitalopram) Lexapro (escitalopram) has less drug interactions than other similar antidepressants and might cause fewer side effects. Find user ratings and reviews for escitalopram oxalate oral on WebMD including side effects and drug interactions, medication effectiveness, ease of use and satisfaction. I have taken 30mg of Lexapro for past 4 years. After the deaths of my son and his wife in a plane crash the depression and anxiety were more than I could bear. This past May I was changed to the generic escitalopram. God Forbid!!!! What a nightmare. Within three weeks I was suicidal, I was going thr. 5, Anxiety and panic attacks, nausea a little more difficult to achieve orgasm, Escitalopram (I am taking the generic version) changed my life. I started to take it about 2 months ago and my anxiety and panic attacks are totally gone! Wonderful sensation. Some days I feel like being high I do love this drug and how it makes me.
