Almost immediately the swelling stopped increasing, so she didn't have to call and he didn't end up with an emergency tracheotomy or worse. My tot walked into a brick wall on Friday and scratched up her face, and I didn't have any first aid gear with me - lesson learned the hard way. So glad the young man was okay!!! Then my friend started calling other parents reminding us to keep liquid Benadryl on hand to abate an allergy emergency. Liquid Benadryl may not make my bag though I plan to talk to my pediatrician about other forms , but I will be sure to have some on the ready at home. Posted by Jeanette at I carry benadryl but also injectable epinephrine. The placid nature of post-school living made it even more surprising when my friend's son came to her this morning complaining that his eye hurt. Minutes later, his lips, tongue, eyes, and hands were swelling beyond easy recognition. I carried them in my purse because I travel a lot and i could place them in the ziploc bag without any issues with the airline.
