Originally Posted by tom Rail that and tell me how you feel in 5 minutes. It gives you more of a rush by rush I mean its alot easier to stay awake when snorted rather than ingested rather than the sleepy, downed felling when taken orally. I'am not exactly positive on how it works but it does give you more of a rush than knock you out. And when i wake up the next day I am left with no side effects, no comedown, or withdraw. Infact for me if i take 10mg of xanax and havent taken klonopin in years and years i would have to take 10mg assuming they equipotent. I will post feedback on this Thread on how well it works. It is sleeping medicine, When I snorted it, a single 10mg line. We comply with the HONcode standard for trustworthy health information - verify here. Im experiencing superb dizziness, txt becomes softer, and seems to move a little bit. I will report back. Taken orally Ambien takes effect pretty fast. Just a weird feeling thats hard to describe and something that I never want to feel again. Im new here, so I figured I'd start with one of my favorite topics: View latest questions Search for answers Ask a question.
