There's no reason to pay a premium for brand-name Crestor. But when the less expensive generic version of rosuvastatin becomes available, that may be a reasonable choice. However, a report published earlier this year in JAMA Internal Medicine found that while there is little evidence to suggest that brand-name statins are more effective or safer than their generic counterparts, many physicians still tend to prescribe the brand names. One of those manufacturers, Actavis, negotiated a deal with AstraZeneca to bring the generic to the market as early as May of this year. This site does not dispense medical advice or advice of any kind. Accessed November 10, Click Terms of Use for more information. We market our products in approximately countries and territories. Nina Devlin Media , Resources and information to help prescribe, dispense and take medicine with confidence. Still, even if you have good prescription drug coverage, you should review your options carefully, as other statins may still be cheaper than generic Crestor. My idea of a healthy lifestyle is dancing enough to balance my love of food and drink. One commonly prescribed statin, rosuvastatin Crestor, has no generic version available. Your response to a statin is impossible to predict, though most versions, including available generics, are well-tolerated and effective. Are There Foods for Type 2 Diabetes?
