This page was last edited on 7 March , at From Wikipedia, the free encyclopedia. Retrieved July 26, Retrieved 4 March Hepatology and Transplant Hepatology: On September 29, , a "Tylenol scare" began when the first of seven individuals died in the Chicago metropolitan area after ingesting Extra Strength Tylenol that had been deliberately contaminated with cyanide. To avoid competing with aspirin , they marketed it as a product to reduce fever in children, packaging it like a red fire truck with the slogan, "for little hotheads". Essentials of Emergency Medicine. A Case Based Approach. These can include codeine as co-codamol , dextromethorphan , methocarbamol , guaifenesin , pseudoephedrine , caffeine , diphenhydramine , chlorpheniramine and phenylephrine. In other projects Wikimedia Commons. All articles with unsourced statements Articles with unsourced statements from December The CDC has stated that Burkholderia cepacia is not likely to cause health problems for those with healthy immune systems, but those with weaker ones and those with chronic lung diseases, such as cystic fibrosis , could be more susceptible to infection. For information about the active ingredient in Tylenol, see paracetamol , also known as acetaminophen. Within a week, the company pulled 31 million bottles of tablets back from retailers, making it one of the first major product recalls in American history. New testing regulations were enacted after the recall to ensure product quality and safety. Retrieved 21 July Two brothers took over the company from their father that year, and that year one of them learned about paracetamol, which was not on the US market at that time. Joseph Aspirin and Tylenol.Tylenol Extra Strength temporarily reduce fevers and relieves minor pain, due to headache, backache, toothache, minor pain of arthritis, the common cold, and premenstrual and menstrual cramps.
