Jan 6, - Abbott Laboratories Manufacturer of: Synthroid Address: Abbott Park Rd North Chicago, IL Phone/General Information: () Phone/Pharmaceutical Product Issues: () Website: unahistoriafantastica.com Email: webmaster@unahistoriafantastica.com Jan 14, - Manufacturing problems have led to the recall of the thyroid-hormone replacement therapy Synthroid for the second time in 6 months. This time, however, the responsibility for the return of more than 28, bottles of the drug falls on the shoulders of AbbVie (\$ABBV), the new company that resulted from the. Jan 31, - Your thyroid gland sits inside the lower front part of your neck below your Adam's apple, and you probably don't even notice it. But it's an important gland. Your metabolism - the rate at which the body produces energy from nutrients and oxygen - is controlled by the thyroid hormone which is made by this. Jul 24, - About 13 million people in the United States depend on thyroid drugs, including 8 million who take Synthroid. Although Synthroid is now made by Abbott Laboratories, the drug is new to the company. Abbott took over the manufacture of Synthroid in March when it bought Knoll Pharmaceuticals. At the same time, the company said it is concerned that the plan for a gradual phase-down of distribution during the review could force patients to change to other When the agency first called on drug makers to file applications for thyroid drugs, Knoll Pharmaceutical, the maker of Synthroid, filed a petition seeking for the. Jun 1, - The regulatory skirmishes between the FDA and Synthroid's maker date back a decade, when the drug was in different corporate hands. Two other drugs -- Levoxyl from King Pharmaceuticals Inc. and Unithroid from Watson Pharmaceuticals Inc. and Jerome Stevens Pharmaceuticals Inc. -- have applied. Company, Drug, Market Share. Abbott Labs, Synthroid, 62%. Jones Pharmaceuticals, Levoxyl, Forest Pharmaceuticals, Levothroid, 6. Stevens, Unithroid, 2. Vintage, Levolet, 1. Mylan, Generic Unithroid, 1. Alara, Levo-T, 0. Because there is no FDA-approved standard for bioequivalence (suitability for substitution), Synthroid has captured 85 percent of the U.S. market for levothyroxine. Synthroid's manufacturer, Knoll Pharmaceuticals Company of Mount Olive, New Jersey, is using the absence of a bioequivalence standard to protect its market.
