School-wide themes are woven into social studies, reading, science and the arts. Skip to secondary content. Our new postcard has just gone out to schools of education across the US. Christchurch is a ghost town, after the earthquakes half the city is fenced off and shut down, in ten years and 10 billion dollars later it should be rebuilt. Tom and Amy Valens will join Jenerra for conversation after the screenings. This site and all contents contained herein unless otherwise stated Copyright , Thrive Your Tribe. Pan African Space Station. Mission Hill has been in their sights for several years. Recently, over people attended events in Chicago that were focused on the critical question of what a quality education should look like. Sahlberg said that the policies that have currently shaped education in the U. Many teachers in Finland will tell you that their leadership models, teaching methods and assessment practices came from established research. Now they see sky and remember what they are. If you know of a teacher educator who might want to use this in his or her work, share this postcard with them. Founded by Chimurenga in , the Pan African Space Station PASS is a periodic, pop-up live radio studio; a performance and exhibition space; a research platform and living archive, as well as an ongoing, internet based radio station. Not Found Apologies, but the page you requested could not be found. Copyright of all material broadcast and published is held by PASS and the individual artists and authors. Perhaps searching will help. You have a new subscriber! Now we need programmers to chose to schedule it, and do so at a time when people are likely to catch it. These are simply examples, suggestions for deep change, a possible starting point for discussion much as they were for the over people who gathered in Chicago last month, eager to change the conversation about education policy.
