Get emergency medical help if you have any of these signs of an allergic reaction to Floxin otic: Floxin Otic Generic Name: Floxin Otic is used to treat infections of the ear canal in adults and children who are at least 6 months old. It is not known whether this medicine passes into breast milk or if it could harm a nursing baby. Stay lying down or with your head tilted for at least 5 minutes. Available for Android and iOS devices. This medicine is for use only in the ears. Wipe the tip with a clean tissue but do not wash with water or soap. It may become contaminated. Do not use Floxin Otic in the eyes or take it by mouth. This is not a complete list of side effects and others may occur. Using cold ear drops can cause dizziness. Floxin Otic is used in adults and children at least 1 year old to treat an inner ear infection also called otitis media. Do not touch the dropper tip or place it directly in your ear. Avoid getting the medicine in your eyes, mouth, and nose, or on your lips. Skip the missed dose if it is almost time for your next scheduled dose. Skipping doses may also increase your risk of further infection that is resistant to antibiotics. Tell each of your healthcare providers about all your medical conditions, allergies, and all medicines you use. Follow all directions on your medicine label and package. Do not touch the dropper opening to any surface, including the ears or hands.
